There have been no significant changes in the nature of these activities during the financial year under review.

FINANCIAL RESULTS

	RM
Surplus for the year after taxation	56,688
Accumulated fund brought forward	<u>200,151</u>
Accumulated fund carried forward	<u><u>256,839</u></u>

RESERVES AND PROVISIONS

There were no material transfers to or from reserves or provisions during the financial year under review.

BAD AND DOUBTFUL DEBTS

Before the income statement and balance sheet of the Yayasan were made out, the trustees took reasonable steps to ascertain that action had been taken in relation to the writing off of bad debts and the making of provisions for doubtful debts and that all known bad debts had been written off and adequate allowance been made for doubtful debts.

At the date of this report, the trustees of the Yayasan are not aware of any circumstances that would render the amount written off for bad debts, or the amount of the allowance for doubtful debts in the Yayasan inadequate to any substantial extent.

CURRENT ASSETS

Before the income statement and balance sheet of the Yayasan were made out, the trustees took reasonable steps to ascertain whether any current assets, other than debts, were unlikely to realise in the ordinary course of business including their value as shown in the accounting records of the Yayasan and to the extent so ascertained were written down to an amount that they might be expected to realise.

YAYASAN HASH HERITAGE
(A Company Limited By Guarantee and Incorporated in Malaysia)

At the date of this report, the trustees are not aware of any circumstances that would render the values attributed to the current assets in the financial statements of the Yayasan misleading.

VALUATION METHODS

At the date of this report, the trustees are not aware of any circumstances which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Yayasan misleading or inappropriate.

CONTINGENT AND OTHER LIABILITIES

At the date of this report there does not exist:-

- a) Any charge on the assets of the Yayasan that has arisen since the end of the financial year which secures the liabilities of any other person, or
- b) Any contingent liability in respect of the Yayasan that has arisen since the end of the financial year.

No contingent or other liability of the Yayasan has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the trustees, will or may substantially affect the ability of the Yayasan to meet its obligations as and when they fall due.

CHANGE OF CIRCUMSTANCES

The trustees are not aware of any circumstances, not otherwise dealt with in this report or the financial statements of the Yayasan that would render any amount stated in the respective financial statements misleading.

ITEMS OF AN UNUSUAL NATURE

The results of the operation of the Yayasan for the financial year were not, in the opinion of the trustees, substantially affected by any item, transaction or event of a material and unusual nature.

There has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the trustees, to affect substantially the result of the operation of the Yayasan for the current financial year, in which this report is made.

(A Company Limited By Guarantee and Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31ST DECEMBER 2007

1. PRINCIPAL ACTIVITIES

The Yayasan is principally engaged in enhancing the sports of hashing, managing and preserving hash heritage materials, creating permanent exhibition and developing a focal point for hashers worldwide. There have been no significant changes in the nature of this activities during the financial year under review.

2. SIGNIFICANT ACCOUNTING POLICIES

a) Basis Of Preparation

The financial statements are prepared under the historical cost convention and are in accordance with applicable approved Accounting Standards in Malaysia and the provisions of the Companies Act 1965.

b) Property, Plant And Equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation/amortisation is provided on the straight line method in order to write off each asset over its estimated useful life.

The principal annual rate used for this purpose is:-

Leasehold land

Over lease period

c) Impairment Of Assets

The carrying amounts of assets other than inventories, assets arising from construction contracts, deferred tax assets, and financial assets, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If such an indication exists, the assets recoverable amounts are estimated. An asset is written down to recoverable amount if the recoverable amount is less than their carrying value. Recoverable amount is the higher of an asset's net selling price and its value in use. An impairment loss is charged to the income statement.

Subsequent increase in the recoverable amount of an asset is treated as reversal of the previous impairment loss and is recognized to the extent of the carrying amount of the asset that would have been determined (net of depreciation) had no impairment loss been recognized. The reversal is recognized in the income statement.

YAYASAN HASH HERITAGE

(A Company Limited By Guarantee and Incorporated in Malaysia)

d) Financial Instruments

Financial instruments carried on the balance sheet include cash and bank balances, receivables and payables. The recognition methods adopted are disclosed in the respective accounting policy statements.

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual arrangements. Interests, dividends, gains and losses relating to financial instruments classified as liability are reported as expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity. Financial instruments are offset when the Yayasan has a legally enforceable right to set off the recognised amounts and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

e) Other Receivables

Other receivables are carried at anticipated realisable values. Bad debts are written off in the year in which they are identified. An allowance is made for doubtful debts based on a review of all outstanding amounts at the balance sheet date.

f) Cash And Cash Equivalentents

Cash and cash equivalentents include cash and bank balances and fixed deposits.

g) Revenue Recognition

Income from subscription and interest on fixed deposit are recognised on an accruals basis.

h) Income Tax

The tax expense for the year is based on the profit for the year, as adjusted for tax purpose, together with a charge or credit for deferred taxation.

Deferred tax is provided for using the liability method, on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts in the financial statement. In principle, deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised. Deferred tax is not recognised if the temporary difference arises from goodwill or negative goodwill or from initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction, effects neither accounting profit nor taxable profit.

YAYASAN HASH HERITAGE

(A Company Limited By Guarantee and Incorporated in Malaysia)

i) Financial Risk Management Objectives And Policies

The Yayasan does not have any formal financial risk management objectives and policies in place as the business activities have limited exposure to financial risks, except for credit and liquidity risk. Nevertheless, the financial risk management of the Yayasan is practiced informally derived from the personal judgement and business acuments of the trustees who are also managers of the Yayasan.

i) Credit Risk

The Yayasan accepts a minimum level of credit risks by limiting the credit amounts and these amounts are reviewed regularly based upon the customer's creditworthiness.

ii) Liquidity And Cash Flow Risks

The Yayasan manages its liquidity risk that is basically relied on the management of working capital to ensure that the cash flows of the operating cycle are sustainable. The surplus funds, if any, are placed in short term deposits and other short term liquidity investment fund with financial institutions. The Yayasan seeks the short and long term financing facilities to meet its operational funding needs.
